

The Peak, St Foy

For families with young ones there is a Snow Cub Crèche affiliated with this chalet and it's on the doorstep. The creche has been built specifically with the children's comfort and contentment in mind. It is open to kids from 6 months to 3-years-old and is fully licensed, not for the children obviously, that would be so wrong, you can't give booze to a baby! it's one of the best equipped ski crèches in the French Alps. The chalet itself is very spacious and set out over four floors, ideal for large family groups. The Peak is a fine example of a luxury ski chalet and is one of the finest in St Foy. The chalet ticks the all important ski-in/ski-out box and has a private access path to the nursery slopes. Every level benefits from a balcony offering spectacular views across the valley to the peaks beyond. If you're looking for a family friendly chalet this delightful luxury ski chalet is hard to beat.
